

Thursday Eve.
Plainfield, Indiana

Dear Janet,

Well how are you ??? I suppose you are working hard as you always say you are. Well of course you know all ways work hard.

I can't write as Buddy is trying to read every thing I write. Some I would not want me to read.

Well you have nothing on me as Ilossey came over the day she got her watch. I found on the back it said 10K gold. I suppose by that its a pretty good one.

Well tonight I am all alone. Ninnie has gone to the hospital to see Earl Blair with Randall. She been gone four nites straight now I wonder how many more. Buddy is still sick and I can't do any thing at all. Poor me.

I would have liked to gone to the hospital myself some but ~~now~~ they took Mary Smith's sister so I didn't want to go.

Well I another great box of air has fallen on the rock. This is the one

Talk Bert. I don't know what the cause was and I won't ask him, but please keep this under your hat & Don't (don't) tell Mary Ann.

That just reminds me of something more. Imogene comes over but she goes around with Minnie. She treats me O.K. but I have nothing to do with her. We speak and talk & play together but that's all.

Well, I went to the show last nite. It sure was good. I saw Will Rogers in in Doctor Bull.

I am going to 4-H tomorrow and ~~now~~ then my fun will begin.

I wouldn't have written you if Daddy hadn't got a supply of stamps so I won't have to pay for a stamp. Well, he got twenty five.

Me, Mother, Minnie, and Randall went mushroom hunting this afternoon. We sure did have fun most of the time fighting.

I would now tell you another great relief to me. I've told me today that

as yet Davis does not have his contract.

They are now dipping gravel. Iub is working here. Every time I go down there I have to help him carry 8 gallon of water up a big hill from the creek. The tractor takes all the time that why he has to carry so much. He doesn't have to do much work but he makes good pay.

To the Walton kids I and kid went on a hike last week and waded in the creek but don't tell any body as if they found this out it would be too tight for us..

Well, I wish you would come down as I have a lot to tell you & much to tell you in a letter.

Please try to get your dad to bring you down some day soon.

Very true pal forever.
Jake

P.S. Please excuse this horrible writing.

Please try & come down soon.

I for not then write
(Let nobody read this)
