Because of the large enrollment of the first grade this year, the tables formerly used, were replaced by new desks. Forty desks were ordered from the American Seating Company; they are of the newest type of desk. The top opens which gives a much neater appearance inside and also more room. The writing top is adjustable, and the seat can be raised or lowered to a certain extent. These desks are not fastened to the floor; they can be moved at any time.

SIXTH GRADE
Jimmy Wikoff has been absent on account of an accident he had while riding on his bicycle.

The sixth graders have been having trouble with their skeletons--we mean subjects and predicates of sentences.

We have enjoyed every show on Monday as each has had a connection with our study of Early Civilization and the development of the human race.

We have selected monitors to help us in keeping our room in order and ourselves orderly.

We enjoy playing the fifth and seventh grades ball teams and hope to become better sports as well as better players.
